

FY24 OHIO IMPACT REPORT

Wounded Warrior Project® (WWP) began in 2003 as a small, grassroots effort providing simple care and comfort items to the hospital bedsides of the first wounded service members returning home from the conflicts in Iraq and Afghanistan. As their post-service needs evolved in their transition to civilian life, we've adapted our programs and services to support warriors and family members.

Our direct service programs, advocacy efforts, and partnerships make an impact for warriors in every state — advancing WWP's vision to foster the most successful, well-adjusted generation of wounded service members in our nation's history.

The following statistics represent WWP™ program activity and impact in the 2024 fiscal year (10.01.2023 — 09.30.2024)

Number of veterans in your state
WWP advocates for:

681,106*

Emotional support calls
made to warriors and
family members:

277
